Notice

Sub: VA for MahaIT Infrastructure

It is requested to give quotation for **Vulnerability Assessment** for MahaIT needs to conduct security audit of MahaIT Infra hosted in SDC location, Apeejay house office and Lower Parel office. In phase 1 we will initiate security audit of all Server farm, Network devices and security devices from professional security audit agency.

The scope is mentioned below

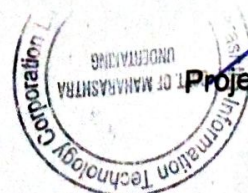

- Define the scope of the audit.
- Determine threats (negligent employees using weak passwords for sensitive company data, malware, phishing attacks, denial of service attack and malicious insiders)
- Review internal policies
- Ensure the safety of sensitive data
- Inspect the servers, network and security devices.
- Examine logs
- Review internet access and Firewall policies

The VA audit will be conducted by a reputable third party vendor currently empaneled with CERTIN and specializes in the delivery of these services. They will conduct a comprehensive analysis of our infrastructure, includes network devices and servers, in order to identify vulnerabilities that may be exploited by cyber threats. The Bidder are requested to submit their quotation in seal envelope on or before 2nd June 2023 by 3:30 PM. The quotation has to be below address.
